To: Schneidman, Eileen

The mega boards were shipped out of KDC on 4/12. Orders to the Ums will arrive early next week as planned.

The poster in the English retail kit that was accidentily shipped to KDC is now at PMX. There will be no delays in shipments of these kits to the Field.

Amarind and I had a 3 hr conference call with KDC end of last week to go over the status of every piece in the program. Life should be pretty good.
